

NURS1002 (1A).

Schedule 3

Anatomy & Physiology

Teacher  
8:10am -  
9:10am

GPAD 60

End of Term

Exam

in 20

Short exam

5

Short answers

Group work 15 min

Assignment 20% of marks

Written 35% of marks

Lab - 30 marks

GPAD 60

Signature Test

Cell - time,

transmission

Life Sciences ①

INSTRUCTORS

Anatomy & Physiology

Rules 1: If it makes individual part

in 100 - respective number of

2: always - 100.

3.

Let's start

1

Objectives - must know -

Anticardiac - receptors -

Adrenal - glands receptors

Thyroid gland

Thyroid gland

Define - Anatomy and physiology -

Level 6 organization at basic characteristics of life.

Define - Anatomical part

Define - Directional terms and relationships

Define - body parts to one another

Give a abdominal region -

Define - Axial and appendicular

Define - Proximal and distal - Relative to body position.
